

FlexiVan & the UIIA

Please be reminded that **FlexiVan (Flexi-Van Leasing, LLC)** is now an active chassis provider participant with the **UIIA (Uniform Intermodal Interchange and Facilities Access Agreement)**, which also offers several benefits for motor carriers, including expedited chassis interchange processes, streamlined management of documentation and extended customer support services.

What does this mean for Motor Carriers?

Before booking any chassis with FlexiVan (daily, pool or term lease), all motor carriers must:

1- be registered with the UIIA and have completed the UIIA FlexiVan credit application. [Register with UIIA.](#)

All Motor Carriers failing to do so may impact their ability to continue to interchange equipment with FlexiVan (as of Sept. 15, 2020).

Here's a quick [video tutorial](#) to help guide you through the registration process.

2- be registered with the FlexiVan organization [Register with FlexiVan](#)

All credit and insurance documentation must now be sent directly to the UIIA (instead of FlexiVan)

FlexiVan is still involved in the credit and insurance approval process, however has transitioned the collection, tracking and management of all required customer documentation to the UIIA.

There is no longer any need to mail or fax your documents to FlexiVan. This includes any insurance cancellation or reinstatement notifications, which now should go to the UIIA instead.

Going forward, please contact the UIIA for the status of credit and/or insurance approval processes by either accessing the [UIIA website](#) or sending and email directly to: uiia@intermodal.org

We appreciate your patience during this transition with the UIIA. Please don't hesitate to contact our **Customer Support** team at the numbers below if you have any questions.
